اولین مرکز توانبخشی بیماران سکته مغزی در ایران

To: Recovery Tech, Inc

The results of your latest clinical trials have proved that your virtual reality game-based product is remarkably efficient in the recovery of patients who suffered from stroke.

Our clinic, as the first specialized rehabilitation center for stroke patients across the country, is pleased to inform you that we are interested in using your product in the rehabilitation program of post-stroke patients.

Regards

Sincerely yours

Tahereh Haji Ahmad, MSc, Head of occupational therapy at Tabassom Stroke Rehabilitation Center.
